Specification :

Controller (Customization Available)

|                           |                       |
|---------------------------|-----------------------|
| Operating Voltage         | 24V DC                |
| Maximum Output Current    | 10A                   |
| Standby Power Consumption | 0.5W                  |
| Control Signal            | 24V analog            |
| Protection                | Overcurrent, Overload |

*Linear Actuators (Customization Available)*

|                               |       |
|-------------------------------|-------|
| <b>Number of Actuators</b>    | 2     |
| <b>Actuator Stroke Length</b> | 150mm |
| <b>Max Load per Actuator</b>  | 6000N |
| <b>Speed</b>                  | 5mm/s |

***Input Devices (Customization Available)***

*Remote Control Handset, Mobile based Android App*

***Applications :***

- *Modern Beds*
- *Luxury Beds*
- *Smart Furniture*
- *Adjustable Beds & Recliners*
- *Luxury Car Seats*
- *First Class and Business Class Seats (Aviation)*
- *Rehabilitation and Mobility Seats*
